

WELCOME TO

MEAT*verse*

The connected world of MEAT.

Built around real people, real life, and real progress. 

MEAT — MAKE EVERY ACTION COUNT

Connect · Plan · Move · Fuel · Grow · Make Impact

ENTER MEATVERSE →

NEW HERE?

Start *here.*

01 · WHAT IS THIS?

MEATverse is the connected world of MEAT — a place where the tools, people, communities, experiences, and rewards that help you move through life all live in one map, built around real people, real life, and real progress.

02 · OH, I GET IT.

Everything you do — a goal, a plan, a dinner, a walk — moves you somewhere. MEAT helps you take the step, tracks it, and connects you with people doing the same, whether you want company or not.

03 · THIS IS INTERESTING.

It's not one feature — it's a whole map. MEAT Circles help you find your people. MEAT Next tells you what to do when you're not sure. MEAT Moments remembers the whole story, big milestones and small ones alike. And From the Ground Floor lets you pre-order a seat at a restaurant before it even opens.

WHAT IS MEATVERSE?

More than an app. A world built around your life.

MEATverse connects the tools, people, communities, experiences, rewards, and opportunities that help you move through life and toward what matters to you.

THE MEATVERSE, IN ONE BREATH

MEATverse is the expanding world of MEAT — a connected ecosystem that goes beyond the app to bring people closer to communities, experiences, opportunities, rewards, tools, and real-life progress. It's not a virtual world. It's a broader way to access everything MEAT can become.

The app helps you move through your day.

MEATverse connects you to everything that can help you move further.

PERSONALIZED

Your MEATverse

No two MEATverses should look the same. What you see depends on your goals, interests, routines, progress, people, and where you are in life.

Alyssa

Jared

BUILDING A BUSINESS

Today: First Steps toward her business plan

People: Matched with Jared, also building

Next: MEAT Next suggests a mentor conversation

Rewards: Points toward priority dinner access

TRAINING FOR A RACE

Today: MEAT Count tracking miles and recovery

People: A small Circle of fellow runners

Next: MEAT Next suggests a rest day check-in

Rewards: Points toward a gym partner discount

Sam

RECONNECTING WITH FRIENDS

Today: A MEATing to call an old friend

People: MEATspace surfacing a MEATUp nearby

Next: MEAT Next suggests trying a new dinner

Rewards: Points redeemable same day, no pressure

RELEVANCE BEFORE INVENTORY

Most rewards ecosystems show you every offer and hope something sticks. MEAT learns you first — what you love, what you don't — then only shows what actually fits your life. The right person, the right room, the right opportunity, the right reward. One user at a time.

MEAT GROWS AS YOU GROW

Most apps recommend the same thing forever. MEAT keeps asking: where are you, where would you like to be — and updates as the answers change. MEAT doesn't define you by who you were when you signed up. It evolves with who you're becoming.

There for the milestones, and everything in
between.

LIVE YOUR DAY

The practical side of MEAT.

MEATings — what needs your attention. First Steps — what moves you forward.
MEAT Count — how much you moved. Goal Progress — where those steps are
taking you. MEAT Next — what comes next.

IF LIFE GETS IN THE WAY

Yesterday's task doesn't just disappear. Keep it today, move it, break it smaller, mark it
complete, or drop it. If you keep moving the same thing, MEAT can ask: "You've moved
this three times. Want me to make it easier?" Accountability without shaming.

MEATINGS

MEATings gives you a gentle ping when something in your day needs your attention — a
task, bill, goal, appointment, follow-up, First Step, or something you said you wanted to
remember. Not more notifications. Better ones.

Not daily minutes spent in MEAT. Daily lives moved by MEAT.

Instagram says look at everybody else. TikTok says keep watching. MEAT says: "**Hey, what
are you up to today?**" And then actually helps.

MEAT helps you remember your life, organize your life, and actually live it.

EVEN IF YOU'VE BEEN GONE A WHILE

WELCOME BACK

Hey Melissa.

Today's MEATs

INSIDE THE APP

What are *MEATings*?

Your personalized reminders for the day.

MEATings gives you a gentle ping when something in your day needs your attention — a task, bill, goal, appointment, follow-up, First Step, or something you said you wanted to remember.

"Here are your MEATings for today." That's the whole idea — phone off, on silent, out living your life, MEATings only shows up if you've said you want it, and it only ever asks about what's actually yours.

MEATing: Your electric bill is due tomorrow.

MEATing: You wanted to call Mom after work.

MEATing: One First Step left toward today's goal.

MEATing: Long day? Check in before you plan tomorrow.

Not more notifications. Better ones.

INSIDE THE APP

What is *MEAT Next*?

Personalized guidance for what comes next — based on where you are, what you've done, and where you want to go.

MEAT Next is MEAT's personalized "what's next?" layer. After you finish what you already needed to do, MEAT Next helps you decide where to go from there based on your goals, interests, progress, routines, and what matters to you right now.

It can suggest the next step toward a goal, a follow-up from something you completed, an activity that fits your interests, a person or Circle to connect with, a MEATUp or experience, something you've been putting off, or a new direction when you're not sure what to do next. The fourth home in the app, right alongside Today, MEATspace, and MEAT Rewards.

You handled today. Now let's figure out what's next.

THE FULL DAILY LOOP

MEATings gets you started → First Steps move the day → rollover keeps you accountable → Meaties and Circles inspire and connect → MEAT Next answers "what's next?" → MEAT Moments captures it

INSIDE THE APP

What is *MEAT Count*?

A visible record of forward movement.

More than a step counter — every meaningful thing you did today, across every part of your life. 3 steps toward fitness, 2 toward starting a business, a bill paid, \$50 toward debt. Then MEAT shows both sides: what you did today, and where it's taking you — MEAT Count Today: 7, Financial Goal: 25% complete. Paying a \$40 bill counts the same as someone else saving \$2,000. MEAT never ranks you against anyone else, only against your own life.

Every step counts. Every payment counts. Every action counts. Because progress should lead somewhere. That somewhere is MEAT.

Making Ends MEAT

MEAT Count counts the steps. Making Ends MEAT shows where the financial ones are taking you.

INSIDE THE APP

MEAT Moments.

Capture the moments that count.

From the everyday wins to the once-in-a-lifetime milestones, keep the people, places, and experiences that make your life yours.

Your first trip out of the country. Graduating. Moving in with your best friend. Starting a business. Meeting someone who changes your life. Getting engaged. Getting married. Becoming a parent. Running your first marathon. And everything exciting in between the milestones, too — even the smaller nights you never want to forget.

Over time, those Moments become a visual timeline of your actions, your people, your experiences, and your growth.

Do something → Capture the Moment → Share/connect → Track your growth → Discover what's Next → Do something again.

It's a story that goes beyond finding events: discover → participate → support → experience → remember. That includes the moment someone can eventually say, *"I supported this before the doors opened."*

MEAT Next: *What will you do next?*

MEAT Moments: *Remember what got you here.*

INSIDE THE APP

From the *Ground Floor*.

People discover chefs and what they hope to open next — the vision, menu direction, proposed neighborhood, and what makes it different — then pre-order a future experience to help generate early support.

This is not an investment, and it does not carry ownership or equity in the restaurant. It's a pre-order for a future experience, with clear terms on fulfillment, refunds, timing, and what happens if the concept doesn't open.

For the guest: Discover what could exist before everyone else does.

For the chef: Find the people who want it, and let their pre-orders help you get there.

Chef Profile → Concept → Community Interest → Pre-Orders → Funding Toward Launch → Opening → MEAT Experience → MEAT Moment

"I supported this before the doors opened."

A Companion For Your Life

MEAT checks in with you, helps you reflect on your day, keeps unfinished things from disappearing, and helps you think about what comes next.

Tell MEAT how you're feeling, what matters tomorrow, and where you want to move forward.

MEAT doesn't need to run your life. It helps you stay connected to it.

FIND YOUR PEOPLE

You don't have to do this alone.

MEATspace. Meaties. MEAT Circles. MEATchat. MEATUp. All the ways to find people moving in a direction like yours.

MEAT doesn't compare people. MEAT helps people move together.

MEATSPACE

Matched with you by interest, goals, and activity.

Jared

Working on his business plan today.

LET'S MEAT

YOU AND SAM BOTH WANT THIS

Sam (friend)

You both want to try the coffee shop on 5th today.

INCOMING REQUEST

A

Alyssa

INTERESTS

Entrepreneurship

Coffee Shops

Fitness

Sent you a Let's MEAT — she's working on her business plan today too.

INSIDE THE APP

What is *MEATspace*?

MEATspace is the social layer of MEAT — a place where Meaties can connect around shared interests, goals, progress, and real-life experiences.

See what your friends are working toward, discover people moving in similar directions, join Circles built around what matters to you, support each other's goals, and turn digital connection into real-world action.

MEATspace isn't about popularity. It's about participation, progress, and finding the right people to move forward with. 

We're all meeting in the middle.

INSIDE THE APP

What are *MEAT Circles*?

Communities built around what matters to you.

Join Circles based on your interests, goals, activities, location, or what you're working toward. Connect with fellow Meaties, share progress, recommend things to each other, plan MEATUps, and help one another keep moving.

Whether it's fitness, food, business, creativity, travel, or something completely different, MEAT Circles gives you a smaller space inside MEATspace to find people who are moving in a similar direction.

Not about popularity. About participation, support, and progress.

INSIDE THE APP

What is *MEATchat*?

MESSAGES · VOICE · VIDEO

Message, call, or connect face-to-face with friends and fellow Meaties — whether you're checking in, working toward a goal, or planning what's next.

Video call a friend or fellow Meatie · Accountability check-ins · Quick goal-planning sessions · Meet someone before a MEATUp · Small Circle group calls · Mentor and creator conversations · Follow-up after connecting in MEATspace

Purposeful, not random.

INSIDE THE APP

What is *MEAT Trends*?

See what people with similar interests and goals are doing, then share

the right ideas with friends, fellow Meaties, or your Circles.

Not another "what's popular" feed. MEAT Trends asks a different question: what are people like me actually doing right now? Trends surface based on your interests, your Circles, your location, your goals, and the people you follow.

TRENDING IN FITNESS CIRCLES

Early morning walking groups

Beginner strength challenge

Meal-prep meetup

SEND TO A MEATIE · SHARE WITH YOUR CIRCLE

"Thought this felt like you."

See a trend, recommend it, a friend accepts, it becomes a First Step or a MEATUp, they complete it — MEAT Count moves. Trends feed directly into action, not passive scrolling.

Trends should inspire participation, not comparison.

A meatie is a great accountability partner for a lot of things. For substance use, mental health, or recovery, MEAT always points toward real, trained support first — not a stranger from an app. See our full Trust & Safety commitments on meathospitalitygroup.com →

Connection should never require surrendering your boundaries.

**Make somebody's Tuesday meaningfully better than it would have been
without MEAT.**

GET MORE FROM PARTICIPATION

MEAT Rewards.

MEAT rewards participation, not attention. Being active in your actual life is what makes the ecosystem more valuable — for you, and for everyone in it.

Post a real picture of yourself, or pick one of our MEAT Avatars instead — your call.

Finish something worth sharing? Post a photo of it — other meaties can like it, comment, and share it, so you're never celebrating alone.

Mockup shown for illustration — the actual app is still being built.

One app for everything. Events. Partner redemptions across the city.
Yesterday's goals and today's. We're not five apps pretending to be one
— we're the one that was actually supposed to exist.

When we grow, you grow. When you grow, we grow.

The goal isn't to replace every specialized app. It's to become the coordination layer
between your intentions and your actual life — knowing why something matters to you,
not just what's on your calendar.

*In this life, we either do it together, or we do it alone. It's just a lot more fun when
we're together.*

FOR GYMS, STUDIOS & SPAS

MEAT isn't only about dinners. The same points and verified participation apply to
health and wellness too — if you run a gym, studio, or spa, this is a real invitation, not
a placeholder. [Reach out →](#)

THE ROADMAP

Where we're expanding

Next — Beyond NYC

MEAT Empire opens the door to more US cities as the model proves out

Then — Further Out

Europe, eventually — where hospitality already runs deep

Long-Term — Global

Asia-Pacific and beyond — the world is waiting, whenever we're ready for it

HOW WE GET THERE

Prove the dinner format repeats. Earn real partnerships — starting with even one real MEAT Points redemption. Build the app, simply at first. Then grow from what's actually proven, not from a bigger pitch.

Why It Started

I saw Thirty Love close — a beautiful place, gone, forgotten. I couldn't accept that. So from 6pm to midnight, with no budget and just an idea, I made MEAT real. Everything you see here grew from that hustle.

MEAT exists to make people's lives better.

Don't watch us dream. Watch us execute.

We didn't invent showing up for each other, or trying something new. That's always been possible. We just built something new that's been right in front of us the whole time.

Wherever we go next, Let's MEAT.

WHEREVER WE GO, IT'S OURS.

THE WORLD IS BUILT ON MEAT.

People. Purpose. Action. Connection.

We will be the MEAT map for everyday lives.

"MEAT helps people know what to do now, what to do next, and who I can do it with."

MEAT should be easier to use than the life problem it's helping you solve. If opening the app ever feels like work, that's on us to fix.

YOUR LIFE IS ALREADY HAPPENING

MEATverse helps you participate in more of it.

As you use MEAT, your map expands. Here's your world. Here's where you've been. Here's what's moving. Here's what's next.

MEATverse should feel expansive when you explore it, but simple when you use it.

Open → see what matters → take action → check it off → see what's next.

MEATverse is a life management app that helps you participate in more of your life. It's designed to be simple and easy to use, so you can focus on what matters.

Could someone open MEAT for the first time and understand what to do without a tutorial? If yes, we're doing it right.

Good morning, Holden.

Here's what matters today. 

ENTER MEATVERSE →

One mission. One sky. All directions.

From one person seeing something beautiful die, to an entire ecosystem being built. That's the MEATverse. That's what happens when you refuse to accept that good ideas should disappear.

Start somewhere. Dinners. The app. Create your own thing. It all feeds the same mission.

Let's MEAT.

MEAT — *life organization as easy as MEATing.* 

QUALITY WITH PURPOSE.

PRICED FOR REAL LIFE.

BUILT FOR PEOPLE WHO KEEP GOING.
